

Cyber Security: Regulatory expectations

Regulator	Content/ <i>Observations</i>
Australian Securities & Investments Commission (ASIC)	<ul style="list-style-type: none"> • Regulatory Guide 259: Risk Management Systems for Responsible Entities <ul style="list-style-type: none"> ○ Guidance to fund managers about their risk management systems, including some guidance on cyber resilience ○ It gives specific guidance on how these entities may comply with their obligation under s912A(1)(h) of the Corporations Act 2001 (Corporations Act) to maintain adequate risk management systems • Report 429 (03/2015) on “Cyber resilience: health check”: includes a health check list (page 8-14) and relevant legal and compliance requirements for different types of regulated entities (Section D and Appendix 2) <p>Guides from other Australian agencies:</p> <ul style="list-style-type: none"> • Office of the Australian Information Commissioner (OAIC) Guide to securing personal information • OAIC Data breach preparation and response — A guide to managing data breaches in accordance with the Privacy Act 1988 (Cth) • The Australian Signals Directorate Essential Eight Mitigation Strategies and Strategies to Mitigate Cyber Security Incidents – Mitigation Details
Canadian Securities Administrators	<ul style="list-style-type: none"> • Cyber security is implicitly covered in Part 11 (internal controls and systems) of Regulation 31-103 respecting Registration Requirements, Exemptions and Ongoing Registrant Obligations (c. V-1.1, r. 10) • The Canadian Securities Administrators (CSA) published on 27 September 2016 CSA Staff Notice 11-332 Cyber Security to promote cyber-security awareness, preparedness and resilience in Canadian capital markets. The CSA also published on 19 October 2017 CSA Staff Notice 33-321 Cyber Security and Social Media, which summarizes survey results of registered firms' cyber security and social media practices, in addition to providing guidance to firms in these areas. • Staff from the British Columbia Securities Commission, the Ontario Securities Commission and the Autorité des marchés financiers published Multilateral Staff Notice 51-347 Disclosure of cyber security risks and incidents on 19 January 2017. The notice reports the findings of a review announced by the CSA in Staff Notice 11-332 Cyber Security and provides disclosure expectations for reporting issuers based on those findings.
EU General Data Protection Directive (GDPR)	<ul style="list-style-type: none"> • Obligations for data controllers and data processors • Organisational and technical measures to be taken to protect against unauthorised or unlawful access and accidental loss, destruction or damage of data • Notification requirements to regulator

Regulator	Content/ <i>Observations</i>
FCA Handbook	<ul style="list-style-type: none"> • SYSC 3 Systems and Controls: focus on establishing and maintaining (1) systems and controls appropriate to the firm’s business and (2) risk-centric governance arrangements • SYSC 6.3 Financial Crime: mostly focussed on money laundering and where firms could be used to further financial crime • Principle 3: Management and Control: “...reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems” • Principle 11: Relations with regulators/disclosure: “... deal with regulators in an open and cooperative way” and disclosure to regulators; SUP 15 implies requirement to notify the FCA or PRA of serious cyber security incidents (e.g. SUP 15.3.1 Matters having serious regulatory impact) <p><i>Issues relating to cyber security implicitly addressed in the FCA Handbook in a principle-based fashion; no dedicated cyber security section.</i></p> <ul style="list-style-type: none"> • Additional FCA Resources on cyber resilience, including publications, and reporting of cyber incidents • Good cyber security – the foundations (1 pager) • “Our approach to Cyber security in financial services firms” (speech, 21 September 2016) [Security culture, good governance, identify key assets, protections, detections, recovery/response, information sharing]
International Organization of Securities Commission (IOSCO): Report on IOSCO’s cyber risk coordination efforts	<p>The report provides an overview of some of the different regulatory approaches related to cyber security that IOSCO members have implemented thus far. Regulators are generally still in the early stages of developing policy responses in the area of cyber security. The report is organized around the relevant segments of the securities markets, namely: reporting issuers; trading venues; market intermediaries; asset managers; and financial market infrastructures.</p> <p>The report makes numerous references to the SBAI Cyber Security Memo.</p>
Monetary Authority of Singapore (MAS): Technology Risk Management Guidelines and Notice on Technology Risk Management	<p><i>Guidelines</i></p> <ul style="list-style-type: none"> • Technology risk management principles and best practices that focus on: <ul style="list-style-type: none"> ○ Establishing a sound and robust technology risk management framework. ○ Strengthening system security, reliability, resiliency and recoverability. ○ Implementing strong authentication to protect customer data, transactions and systems. <p><i>Notice</i></p> <ul style="list-style-type: none"> • Sets out requirements on <ul style="list-style-type: none"> ○ High reliability, availability and recoverability of critical systems. ○ IT controls to protect customer information from unauthorized access or disclosure. ○ Notification of serious security breaches or failure of critical systems to MAS. <p><i>The Cyber Security Agency (CSA) under the Prime Minister’s office, coordinates building cyber capabilities and collaborating with the private sector to monitor, detect and mitigate the impact of cyber risks.</i></p>
